Education

University of Moratuwa- Sri Lanka *March 2024– ongoing*

B.Sc. Eng. (Hons) in Computer science & Engineering

- **Coursework:** Data Structures and Algorithms, Computer Organization and Digital Design, Database System, Data communication and Networking, Program Construction, Calculus, Probability and Statistics, Introduction to AI, Operating Systems , Thermodynamics , Differential Equations

Rippon Girls' College ,Galle - Sri Lanka *January 2014 – January 2023*

- GCE Advanced Level 2022 (Combined Mathematics, Physics, Chemistry, General English): 4 A (distinction) passes, Zscore = 2.5793 , Island Rank -157 , District Rank -23
- GCE Ordinary Level 2019 : 9 A passes

Nagoda Royal College *January 2009- December 2013*

Projects

PawMatch - Devthon 3.0 (Finalists) *Dec 2025 - feb 2026*

- *Collaborated in a team to develop **PawMatch**, a pet adoption and fostering platform with a compatibility-based matching system, reaching the Top 10 Finalists at Devthon 3.0 and pitching the solution to judges.*

BioFusion Hackathon 2026 – First Place (AI/ML) *jan 2026*

- *Developed a two-stage AI/ML pipeline for early preeclampsia risk detection, achieving top rank among competing teams. Designed and implemented end-to-end model workflow, including data preprocessing, model training, and evaluation.*

EcoSpark 2025 *Sep 2025*

- *Top 10 finalist at the Innovative Idea Challenge 2025 for developing an innovative, impact-focused solution to a real world societal problem.*

ModelX Competition (Group) *Dec 2025- Jan 2026*

- *Selected for the second round of the MODEL-X National Hackathon, where we developed and pitched a real-time risk intelligence platform. Previously won Round 1 by building a predictive AI model to assess dementia risk using nonmedical user data.*

Nano-Processor Simulation Project (Group) *April 2025 - June 2025*

◦ *Gaining hands-on experience in digital design, hardware description languages, and low-level programming ◦ Tools Used: Xilinx Vivado, VHDL, Assembly Language*

BrightBuy E-Commerce Platform (Group Project/ Database systems) *Sep 2025*

◦ *Contributed to the development of an e-commerce web application by building the admin dashboard and supporting frontend components.*

Soft Skills

Leadership Skills

◦ *Co-Chair - IEEE Women's day Webinar Session 2025*

Team Collaboration

◦ *Design Committee Member-IEEE Power and Energy Society (2025)*

◦ *Publicity Visibility Committee Member-IEEE Robotic and Automation Society (Robotics day 2025)*

Technologies

Programming Languages Tools: Python, C++, C, Java, Html, CSS, JS, GO

Design Tools: Figma, Canva

Language Proficiency

- English(Intermediate)
- Sinhala (Native)

Extracurricular Activities

Senior Western Brass Band Member, Rippon Girls' College : Represented the school as a percussionist in national-level competitions.

All Island 3rd Place – Western Brass Band Competition (2020) : Secured 3rd place at the national level as part of the percussion team.

External Courses

1. AWS Cloud Computing Trainee (2026)
2. Web Design for Beginners – Open Learning Platform UOM (2022)

3. Python for Beginners – Open Learning Platform UOM (2022)
4. Introduction to Software Quality Assurance – Open Learning Platform UOM (2026)
5. Front End Web Development – Open learning platform UOM (2026)
